Books and Book Chapters

Kinghorn, B P; **Banks, R G** and Simm, G (2014). Genetic Improvement of Beef Cattle. In D Garrick and A Ruvinsky (Eds.), *The Genetics of Cattle* 2nd edition, pp 451-473, Wallingford, Oxfordshire: CAB International.

Journal Articles

Al-Mamun, H A; Kwan, P; Clark, S A; **Ferdosi, M H**; Tellam, R and Gondro, C (2015). "Genome-wide association study of body weight in Australian Merino sheep reveals an orthologous region on OAR6 to human and bovine genomic regions affecting height and weight." *Genetics Selection Evolution* 47:66 <u>doi</u>.10.1186/s12711-015-0142-4.

Amer, P R; Ludemann, C I and **Hermesch, S** (2014). "Economic weights for maternal traits of sows including sow longevity." *Journal of Animal Science* 92 (12):5345-57 <u>doi</u>.10.2527/jas.2014-7943.

Asadi Fozi, M: van der Werf, J H J and **Swan, A A** (2012). "Modelling genetic covariance structure across ages of mean fibre diameter in sheep using multivariate and random regression analysis." *Animal Production Science* 51 (11):1019-1026 <u>doi</u>.10.1071/AN12139.

Barwick, S A; **Johnston, D J**; Holroyd, R G; Walkley, J R W and Burrow, H M (2014). "Multi-trait assessment of early-in-life female, male and genomic measures for use in genetic selection to improve female reproductive performance of Brahman cattle." *Animal Production Science* 54 (1):97-109 <u>doi</u>.org/10.1071/AN13134.

Barwick, S A; Tier, B; Swan, A A and **Henzell, A L** (2012). "Estimation of accuracies and expected genetic change from selection for selection indexes that use multiple-trait predictions of breeding values." *Journal of Animal Breeding and Genetics* doi:10.1111/jbg.12011.

Barwick, S A; Tier, B; Swan, A A and **Henzell, A L** (2013). "Estimation of accuracies and expected genetic change from selection for selection indexes that use multiple-trait predictions of breeding values." *Journal of Animal Breeding and Genetics* 130 (5):341-348 <u>doi</u>.10.1111/jbg.12011.

Bergsma, R and **Hermesch, S** (2012). "Exploring breeding opportunities for reduced thermal sensitivity of feed intake in the lactating sow." *Journal of Animal Science* 90 (1):85-98 doi.10.2527/jas.2011-4021.

Boerner, V; **Johnston, D J** and **Tier, B** (2014). "Accuracies of genomically estimated breeding values from pure-breed and across-breed predictions in Australian beef cattle." Genetics Selection Evolution 46:61 <u>doi</u>.10.1186/s12711-014-0061-9.

Boerner, V; Johnston, D J; Wu, X-L and Bauck, S "Accuracy of Igenity genomically estimated breeding

values for predicting Australian Angus BREEDPLAN traits." *Journal of Animal Science* 93 (2): 513–521 doi.org/10.2527/jas.2014-8357.

Bolormaa, S; Pryce, J E; Kemper, K; Hayes, B J; **Zhang, Y; Tier, B**; Barendse, W; Reverter, A; and Goddard, M E (2013). "Detection of quantitative trait loci in *Bos indicus* and *Bos taurus* cattle using genome-wide association studies." *Genetics Selection Evolution* 45 (1):43 doi:10.1186/1297-9686-45-43.

Bolormaa, S; Pryce, J E; Kemper, K; Savin, S; Hayes, B J; Barendse, W; **Zhang, Y D**; Reich, C M; Mason, B A; Bunch, B J; Harrison, B E; Reverter, A; Herd, R M; **Tier, B; Graser, H-U** and Goddard, M E (2013). "Accuracy of prediction of genomic breeding values for residual feed intake and carcass and meat quality traits in *Bos taurus, Bos indicus*, and composite beef cattle." *Journal of Animal Science* 91 (7):3088-3104 doi:10.2527/jas.2012-5827.

Bolormaa, S; Pryce, J E; Reverter, A; **Zhang, Y**; Barendse, W; Kemper, K; **Tier, B**; Savin, K; Hayes, B J and Goddard, M E (2014). "A Multi-Trait, Meta-analysis for Detecting Pleiotropic Polymorphisms for Stature, Fatness and Reproduction in Beef Cattle."

Börner, V and Reinsch, N (2012). "Optimising multistage dairy cattle breeding schemes including genomic selection using decorrelated or optimum selection indices." *Genetics Selection Evolution* 44 (1) doi.10.1186/1297-9686-44-1.

Börner, V and Reinsch, N (2012). "Optimum multistage genomic selection in dairy cattle." *Journal of Dairy Science* 95 (4):2097-2107 doi.org/10.3168/jds.2011-4381.

Börner, V; Johnston, D J and **Graser, H-U** (2013). "Genetic relationships between live animal scan traits and carcass traits of Australian Angus bulls and heifers." *Animal Production Science* 53(10):1075-1082 <u>doi</u>.org/10.1071/AN12435.

Brown, D J and **Swan, A A**(2015). "Genetic parameters for liveweight, wool and worm resistance traits in multi-breed Australian meat sheep. 2. Genetic relationships between traits." *Animal Production Science* 56 (9): 1449-1453 <u>doi</u>.org/10.1071/AN14788.

Brown, D J, Swan, A A, Gill, J S, Ball, A J and **Banks, R G** (2015). "Genetic parameters for liveweight, wool and worm resistance traits in multi-breed Australian meat sheep. 1. Description of traits, fixed effects, variance components and their ratios." *Animal Production Science* 56 (9): 1442-1448 doi.org/10.1071/AN14787.

Brown, D J; Jones, R M and Hinch, G N (2014). "Genetic parameters for lamb autopsy traits." *Animal Production Science* 54 (6):736-744 <u>doi</u>.org/10.1071/AN13227.

Bunter, K L and **Johnston, D J** (2014). "Genetic parameters for calf mortality and correlated cow and calf traits in tropically adapted beef breeds managed in extensive Australian production systems." *Animal Production Science* 54 (1) 50-59 <u>doi</u>.org/10.1071/AN12422.

Bunter, K L; Johnston, D J; Wolcott, M L and Fordyce, G (2014). "Factors associated with calf mortality in tropically adapted beef breeds managed in extensive Australian production systems." *Animal Production Science* 54 (1) 25-36 <u>doi</u>.org/10.1071/AN12421.

Bunter, K L; Lewis, C R G and Newman, S (2015). "Social genetic effects influence reproductive performance of group-housed sows." *Journal of Animal Science* 93 (8): 3783-3793 doi:10.2527/jas2015-9111.

Burns, B M; Corbet, N J; Corbet, D H; Crisp, J M; Venus, B K; **Johnston, D J**; Li, Y; McGowan, M R and Holroyd, R G (2013). "Male traits and herd reproductive capability in tropical beef cattle. 1. Experimental design and animal measures." *Animal Production Science* 53 (2):87-100 doi.org/10.1071/AN12162.

Chen, Y; Piper, E; **Zhang, Y; Tier, B; Graser**, H-U; Luxford, B G and Moran, C (2011). "A single nucleotide polymorphism in suppressor of cytokine signalling-2 is associated with growth and feed conversion efficiency in pigs." Animal Genetics 42 (2):219-221 doi:10.1111/j.1365-2052.2010.02107.x

Collis, E; Fortes, M R S; **Zhang, Y; Tier, B**; Schutt, K; Barendse, W and Hawken, R (2012). "Genetic variants affecting meat and milk production traits appear to have effects on reproduction traits in cattle." *Animal Genetics* 43 (4):442-446 <u>doi</u>.10.1111/j.1365-2052.2011.02272.x.

Corbet, N J; Burns, B M; **Johnston, D J; Wolcott, M L**; Corbet, D H; Venus, B K; Li, Y; McGowan, M R; Holroyd, R G (2013). "Male traits and herd reproductive capability in tropical beef cattle. 2. Genetic parameters of bull traits." *Animal Production Science* 53 (2):101–113 <u>doi</u>.org/10.1071/AN12163.

Fortes, M R; Kemper, K; Sasazaki, S; Reverter, A; Pryce, J E; Barendse, W; Bunch, R; McCulloch, R; Harrison, N; Bolormaa, S; **Zhang, Y D**; Hawken, R J; Goddard, M E and Lehnert, S A (2013). "Evidence for pleiotropism and recent selection in the PLAG1 region in Australian Beef cattle." *Animal Genetics* 44 (6):636-647 doi.10.1111/age.12075.

Fortes, M R; Li, Y; Collis, E; **Zhang, Y** and Hawken, R J (2013). "The IGF1 pathway genes and their association with age of puberty in cattle." *Animal Genetics* 44 (1):91-95 <u>doi</u>.10.1111/j.1365-2052.2012.02367.

Gilbert, H; Bidanel, J P; Billon, Y; Lagant, H; Guillouet, P; Sellier, P; Noblet, J and **Hermesch, S**. (2012). "Correlated responses in sow appetite, residual feed intake, body composition and reproduction after divergent selection for residual feed intake in the growing pig." *Journal of Animal Science* 90 (4):1097-1108 doi.10.2527/jas.2011-4515.

Guy, S Z Y; Thomson, P C and **Hermesch, S** (2012). Selection for pigs for improved coping with disease and environmental challenges: resistance or tolerance?" *Frontiers in Genetics* doi:10.3389/fgene.2012.00281.

Hawken, R J; **Zhang, Y**; Fortes, M R S; Collis, E; Barris, W C; Corbet, N J; Williams, P J; Fordyce, G; Holroyd, R G; Walkley, J R W; Barendse, W; **Johnston, D J**; Prayaga, K C; **Tier, B**; Reverter, A and Lehnert, S A (2012). "Genome-wide association studies of female reproduction in tropically adapted beef cattle." *Journal of Animal Science* 90 (5):1398-1410 <u>doi</u>.10.2527/jas.2011-4410.

Hermesch, S and **Jones, R M** (2012). "Genetic parameters for haemoglobin levels in pigs and iron content in pork." *Animal* 6 (12):1904-1912 <u>doi</u>.org/10.1017/S1751731112001310.

Hermesch, S; Li, L; Doeschl-Wilson, A B and Gilbert, H (2015). "Selection for productivity and robustness traits in pigs." Proceedings of the 15th Biennial Conference of the Australian Pig Science Association (APSA), Melbourne, Victoria, November 22-25. *Animal Production Science* 55 (12): 1437-1447. Manipulating Pig Production XV doi.org/10.1071/AN15275.

Hermesch, S; Ludemann, C I and Amer, P R (2014). "Economic weights for performance and survival traits of growing pigs." *Journal of Animal Science* 92 (12):5358-66 <u>doi</u>.10.2527/jas.2014-7944.

Hickey, J M; Kinghorn, B P; **Tier, B**; Clark, C A; van der Werf, J H J and Gorjanc, G (2013). "Genomic evaluations using similarity between haplotypes." *Journal of Animal Breeding and Genetics* 130

(4):259-2695 <u>doi</u>.10.1111/jbg.12020.

Hickey, J M; Kinghorn, B P; **Tier, B**; van der Werf, J H J; Cleveland, M A (2012). "A phasing and imputation method for pedigreed populations that results in a single-stage genomic evaluation." *Genetics Selection Evolution* 44 (9) <u>doi</u>.10.1186/1297-9686-44-9.

Hickey, J M; Kinghorn, B P; **Tier, B**; Wilson, J F; Dunstan, N and van der Werf, J H J (2011). "A combined long-range phasing and long haplotype imputation method to impute phase for SNP genotypes." *Genetics Evolution Selection* 43 (1):12 <u>doi</u>.10.1186/1297-9686-43-12.

Horton, B; **Banks**, **R** and van der Werf, J H W (2014). "Industry benefits from using genomic information in two and three-tier sheep breeding systems." *Animal Production Science* doi.org/10.1071/AN13265.

Houle, D and **Meyer**, **K** (2015). "Estimating sampling error of evolutionary statistics based on genetic covariance matrices using maximum likelihood." *Journal of Evolutionary Biology* 28 (8): 1542-1549 doi.10.1111/jeb.12674.

Huisman, A E; **Brown, D J** and Fogarty, N M (2014). "Ability of sire breeding values to predict progeny bodyweight, fat and muscle using various transformations across environments in terminal sire sheep breeds." *Animal Production Science* <u>doi</u>.org/10.1071/AN14666.

Jeyaruban, M G; Tier, B; Johnston, D J and **Graser, H-U** (2012). "Genetic analysis of feet and leg traits of Australian Angus cattle using linear and threshold models." *Animal Production Science* 52 (1):1-10 doi.10.1071/AN11153.
