

**GYRANDA L680 (P)**

**BREED:** Santa Gertrudis  
**SOCIETY ID:** GYR15ML680  
**DOB:** 2014 / 10 / 14  
**Sire:** GYRANDA EGON E232 (PS)  
**Dam:** GYRANDA G147  
**DNA Case#:** UQ569631  
**Project use:** Natural Service

**REPRONOMICS PROGENY**

Cohort	#11	#12	#13	#14	#15	#16	#17	#18	#19	#20	TOTAL
N Brian Pastures								40	15	10	65
N Spyglass											0

Repronomics research EBVs from the April 2021 evaluation identified the sire's EBV to be above average, average or below average compared with other sires with 10 or progeny for the trait. Each category contains approximately a third of the sires (from all breeds), i.e. an above average sire is in the top 30% of Repronomics sires recorded for that trait. \*\* indicates the sire is in the top/bottom 3 of Repronomics sires

TRAIT		N PROG	Research EBV
Heifer age at puberty	heifer	18	Younger
Lactation anoestrous interval	2nd mating		
Days to calving	1st mating		
	2nd mating		
Body Condition Score	heifer	19	Higher
	1st mating	18	Higher
	2nd mating		
Hip Height	heifer	17	Average
	1st mating	18	Average
	2nd mating		
Ultrasound EMA	1st mating	17	Smaller
	2nd mating		
Ultrasound P8 Fat	heifer	17	Fatter
	1st mating	18	Fatter
	2nd mating		
Ultrasound Rib Fat	1st mating	18	Fatter
	2nd mating		
Live weight	1st mating	18	Average
	2nd mating		
Coat length score	weaning	61	Hairier**
Naval size score	1st mating	18	Smaller
Cow mothering score	1st calving		
Udder size score	1st calving		
Teat size score	1st calving		

**PROGENY RECORDED WITH BREEDPLAN: 64 calves across 1 herds born 2017 to 2019**
