

GYRANDA LORAX L794 (PP)

BREED: Santa Gertrudis
SOCIETY ID: GYR15ML794
DOB: 2014 / 8 / 21
Sire: TOOKEY CREEK GURU G34 (PS)
Dam: GYRANDA J359
DNA Case#: UQ779919
Project use: AI

REPRONOMICS PROGENY

Cohort	#11	#12	#13	#14	#15	#16	#17	#18	#19	#20	TOTAL
N Brian Pastures										17	17
N Spyglass											0

Repronomics research EBVs from the April 2021 evaluation identified the sire’s EBV to be above average, average or below average compared with other sires with 10 or progeny for the trait. Each category contains approximately a third of the sires (from all breeds), i.e. an above average sire is in the top 30% of Repronomics sires recorded for that trait. ** indicates the sire is in the top/bottom 3 of Repronomics sires

TRAIT		N PROG	Research EBV
Heifer age at puberty	heifer		
Lactation anoestrous interval	2nd mating		
Days to calving	1st mating	<10	
	2nd mating		
Body Condition Score	heifer		
	1st mating		
	2nd mating		
Hip Height	heifer		
	1st mating		
	2nd mating		
Ultrasound EMA	1st mating		
	2nd mating		
Ultrasound P8 Fat	heifer		
	1st mating		
	2nd mating		
Ultrasound Rib Fat	1st mating		
	2nd mating		
Live weight	1st mating		
	2nd mating		
Coat length score	weaning	16	Average
Naval size score	1st mating		
Cow mothering score	1st calving		
Udder size score	1st calving		
Teat size score	1st calving		

PROGENY RECORDED WITH BREEDPLAN: 103 calves across 2 herds born 2017 to 2019
